Ishita Shah

Junior Python Developer

Pune, India | ishita.shah@example.com | +91 90000 10002

PROFESSIONAL SUMMARY

Entry-level developer with a foundation in Python programming and backend web development. Enjoys writing readable code and building small web applications.

TECHNICAL SKILLS

Python, Flask, Django, REST APIs, Git, HTML, SQL, Debugging

PROJECTS

Task Tracker Web App

Created a simple task-tracking application with routes to add, view, and update tasks. Used Flask for request handling and templates for page rendering.

Library Record Manager

Developed a small Django application to organise book records and search for books by title or author.

EDUCATION

Diploma in Information Technology | 2024–2027

EXPERIENCE

Personal Projects | 2025–2026 — Built and tested small Python applications and practised debugging common errors.
